DIVERSIFIED CEO APPOINTED TO WALL STREET WEST EXECUTIVE BOARD

SCRANTON, Pa.–September 22, 2008–Diversified Information Technologies, a leader in data and document management services, announced today the appointment of President and CEO Scott A. Byers to the Wall Street West/WIRED Initiative Executive Board. He will also serve on the WSW Sustainability Committee.

Byers has held leadership positions, including C-level appointments, with organizations in a variety of industries. Prior to his position at Diversified, he was Vice President of Finance and General Counsel at Wilkes University. Byers has a Bachelor’s degree in finance and accounting from Robert Morris University, an MBA from American University’s Kogod School of Business, and a law degree from American University’s Washington College of Law.

“I am very pleased to have been asked to serve on the Executive Board,” said Byers. “Wall Street West is committed to supporting and promoting Northeast Pennsylvania’s workforce and attracting out-of-state business that will benefit everyone involved.”

In February 2006 the Wall Street West initiative secured a Workforce Innovation in Regional Economic Development (WIRED) grant from the U.S. Department of Labor for programs associated with improving the present and future workforce with the goal of encouraging New York-based companies to establish back-office and data backup operations in Northeastern Pennsylvania.

About Diversified Information Technologies

Headquartered in Scranton, Pennsylvania and founded in 1982, Diversified Information Technologies helps clients transfer paper-based file management systems to a secure, electronic environment, allowing its customers to access and share files, invoices and other documents. In addition, Diversified provides availability solutions, electronic mailroom processing, automated forms and healthcare claims processing, and archival records storage.
