

**DIVERSIFIED INFORMATION TECHNOLOGIES ANNOUNCES FOURTH RECORDS STORAGE CENTER THAT COMPLIES WITH 36 CODE OF FEDERAL REGULATIONS (CFR) PART 1228, SUBPART K**

**SCRANTON, Pa.— March 15, 2010**—Diversified Information Technologies, a leading provider of document and information lifecycle solutions, today announced that its facility located in Jacksonville, FL complies with stringent 36 CFR part 1228, subpart K Federal regulations. These regulations outline specific requirements for all document centers storing federal records including NARA-operated Federal Records Centers, agency-operated storage centers, and commercial records centers.

The Jacksonville facility is the fourth Diversified records management center that is in compliance with 36 CFR part 1228, subpart K.

Diversified is one of a few commercial companies in the information management industry whose facilities meet the 36 CFR part 1228 subpart K compliance standards. Key NARA requirements relate to facility perimeter, entry, and interior security; fire safety and suppression; proven fire safe construction materials; and environmental controls.

“We continue to submit our document management and records centers for 36 CFR part 1228, subpart K approval to demonstrate our commitment to securing compliance and protecting the records of both our federal government and commercial clients. We proactively engage the NARA approval process because it is the right way to secure our clients’ records,” commented Diversified’s President and CEO Scott Byers. “Our company has traditional values and proven solutions to meet today’s changing marketplace and evolving regulations.”

“Diversified was the first commercial vendor listed on the NARA website as having an approved center for the storage of federal records in compliance with the requirements of 36 CFR, part 1228 subpart K,” added Leo Malsky, vice president of operations at Diversified. He continued, “The recent mandates for Government agencies and their contractors to comply with updated regulations from NARA for protecting federal documents has created a growing need and demand from our clients to securely manage and store their information.”

Diversified’s Moosic, PA location claims the distinction of being the first commercial vendor listed on the NARA Central Registry of Approved Facilities website for the Storage of Federal Records in 2002. The second Diversified facility to receive 36 CFR compliance approvals is located in Delano, PA; the third in Gordonsville, VA; and with the approval of the Jacksonville facility, Diversified provides centers from Maine to Miami.

Diversified Information Technologies, founded in 1982, is headquartered in Scranton, PA. Diversified’s solutions manage the complete document and information lifecycle and include records management solutions for physical and electronic records storage, electronic mailroom processing, document imaging, consulting services, and print and electronic presentment. With processes, people and facilities fully certified and compliant with federal and industry regulations including HIPAA, Sarbox, NARA 36CFR, ISO 9001, and SAS 70 Type II, we serve the Fortune 1000 in the financial, insurance, healthcare, government and other industries. Diversified has 23 U.S. and four international locations. For more information, visit [www.diversifiedweb.com](http://www.diversifiedweb.com)
