

APPOINTMENTS TO DIVERSIFIED INFORMATION TECHNOLOGIES EXECUTIVE TEAM

CFO & CIO Appointed to Executive Team

Scranton, Pa.— October 29, 2009-- Diversified Information Technologies, a leading provider of document and information lifecycle solutions, announced today that it has appointed Brian Brady as Vice President & Chief Financial Officer and Raju Gadiraju as Vice President & Chief Information Officer.

Diversified Information Technologies (Diversified) solutions manage the complete document and information lifecycle and include integrated records management for both physical and electronic records storage; electronic mailroom processing services; document imaging; workflow automation and information management consulting services; integrated print and electronic presentment; and print output solutions. The company serves the Fortune 1000 in the financial, insurance, healthcare, government and other industries.

“One of my most important responsibilities is to continuously evaluate the members of our leadership team and ensure that Diversified has the talent and the team necessary to accomplish the very ambitious goals contemplated in our strategic plan”, said Diversified’s President and CEO Scott Byers. Byers continued, “Our acquisition of Active Data Services of Raleigh-Durham, NC three weeks ago is one such goal. In order for us to reach our desired goals and maintain our position as a trusted partner in Information Management, we need to constantly assess, grow and develop as a company.

“As Diversified evolves, our leadership needs change as well. My father founded this company 27 years ago and the success of our business shows that he was an effective leader. The competitive environment has changed significantly and we realize that a different kind of leader is what we need to grow today. We are excited about the new leadership and talent,” stated Clifford A. Melberger, Diversified’s Chairman of the Board.

Brian Brady will join Diversified in November as Vice President & CFO. Brian has over 22 years of experience in a variety of technology-related businesses and industries, including financial services, software, chemical manufacturing, telecommunications, aerospace, and information technology. Most recently, he was a Principal with Gates and Company, a management consulting and investment banking company. While with Gates and Company, he provided consulting assistance to technology-related businesses like Diversified, by providing his expertise and experience in mergers and acquisitions, financial analysis, corporate strategies, business operations, process improvement, and

capital acquisition. Prior to Gates, he was CFO of Iridian Technologies and held leadership positions with companies such as Price Waterhouse Coopers, General Electric, Martin Marietta, and Contel/GTE. He holds an MBA from the University of Pennsylvania's Wharton School of Business and is also a Certified Public Accountant.

Raju Gadiraju joined Diversified three weeks ago with the acquisition of Active Data Services. He was later appointed to the executive team as Vice President and Chief Information Officer. Raju held an executive position as Vice President of Information Technology for the last six years at ADS. He implemented a variety of strategic technology initiatives and brought in new team members with complementary skill sets to strengthen the company's capability in delivering cutting-edge technology solutions. Raju is skilled in working with groups that boast diverse talents and backgrounds. Over the years, Raju has generated higher levels of efficiency and quicker response times by encouraging continuous learning, accountability, transparency, and team building within the company. Prior to joining ADS, Raju worked as IT Manager for the Supply Chain Management business unit at MSX International. During his nine years at MSXI, he was a key member of various enterprise application development initiatives and led large technical teams successfully. Raju has a Bachelor's degree in Electrical Engineering and a Masters Degree in Computer Science from Alabama A&M University.

Diversified Information Technologies, founded in 1982, is headquartered in Scranton, PA, two hours from NYC. Diversified's solutions manage the complete document and information lifecycle and include integrated records management solutions for both physical and electronic records storage; electronic mailroom processing services; document imaging; workflow automation and information management consulting services; integrated print and electronic presentment; and print output solutions. With processes, people and facilities fully certified and compliant with federal and industry regulations including HIPAA, Sarbox, NARA 36CFR, ISO 9001, and SAS 70 Type II, we serve the Fortune 1000 in the financial, insurance, healthcare, government and other industries. Diversified has 17 U.S. and three international locations. For more information, visit www.diversifiedweb.com
