### **Former Chubb Executive joins Diversified Board**

Scranton, Pa. – 04 September, 2009 – Chairmen Clifford K. “Cliff” Melberger and Clifford A. “Mickey” Melberger announced the appointment of June Drewry to the Diversified Board. Ms. Drewry was the Global Chief Information Officer for Chubb & Son until her retirement in 2009. Ms. Drewry has extensive international experience in the insurance and financial services industry at the senior management level, as a corporate CIO, business unit CIO and as president of a third party administration subsidiary. “June brings years of experience in information technology (IT) as a practitioner and leader. IT is a key component of Diversified’s core services and solutions. The fact that those years of experience and expertise were acquired in a setting that is in line with Diversified’s focus industries namely insurance and financial services is just another reason why I believe her guidance and insight will be of great value to our Board”, explained Mickey Melberger.

Ms. Drewry is currently pursuing her passion for developing senior IT leaders and is an Executive Coach at Treeline Consulting. She also serves as a director of the Society for Information Management’s Leadership Development Institute, having served SIM in the past as a chapter president, a member-at-large on the SIM International board of directors, and two terms as president of SIM International. According to Cliff Melberger, “Diversified has been on the path to growth despite the difficult economic times and I know that we cannot sustain that growth if we do not continue to build our bench strength in the area of information technology. June’s particular passion for developing senior IT leaders is another reason why we are very pleased she has joined the Board.”

June earned her B.A. degree in mathematics with a business minor from Caldwell College for Women. She has earned several awards throughout her career for innovative business use of technology and leadership in information technology.
